Sleep Science Folding Foundation

Introduction:

Specialty bedding such as memory foam and latex mattresses perform best when on a solid continuous surface. Spring mattresses can also benefit by the support of the solid wood surface of the Sleep Science Folding Mattress Foundation. This foundation replaces a box spring and the need for a bedframe. It stands 14” high with ample storage beneath and fits into any standard bed frame. The Sleep Science Folding Mattress Foundation provides optimal support in a complete sleep system, with a solid wood top and reinforced metal legs.

The Sleep Science Folding Mattress Foundation was designed for easy 1-2-3 assembly. Simply follow the instructions included in the box. It only takes three easy steps and can be assembled in 5 minutes!

Features:

- Replaces a box spring and the need for a bedframe
- Can be used as a stand-alone platform bed
- Fits inside most bed frames
- Meets the requirements of 16 CVR Part 1633 – Federal Flammability (open flame) Standards
- Solid wood top surface instead of wire that can damage a mattress after prolonged use
- Includes a foundation cover which is machine washable
- Easy to assemble, no tools required

Folding Foundation Includes:

- 1 Folding Foundation
- 6 2-Part Metal Legs (There is an upper and lower part of the leg that needs to be assembled)
- 12 Plastic Washers
- 1 Foundation Slip Cover
- (Optional) 6 Foam Foundation Leg Pads with Adhesive Strip (Placed on the upper part of the leg facing outward, to give the foundation cover a smooth/nice appearance)

WARNING! Read Instructions Carefully Before Beginning.

It is best to assemble this Folding Foundation in the area you want your new Bed Foundation to be permanently placed. IMPORTANT: WE STRONGLY RECOMMEND THAT 2 ABLE-BODIED ADULTS ASSEMBLE THIS PRODUCT.

Quick Set-Up Guide:

Step 1: Unfold the frame.  
Step 2: Attach the Legs. 
Step 3: Put the cover on.
Folding Foundation Assembly Instructions:

CAUTION: Do not attempt to open the Folding Frame until it is lying flat. Carefully unfold the foundation and remove the Slip Cover and leg parts. Discard the Wooden Blocks used to protect the hinges during shipping only.

Step 1: Assemble legs; place a plastic washer between the Lower Leg and the Upper Leg Mount before screwing the parts together. Place a washer between the upper Leg Mount and the frame when attaching the Legs to the Folding Foundation Frame.

Step 2: With help of your able bodied assistant, turn the Bed Foundation over and set in place upright on its legs. NOTE: Avoid “Pinch Points” Do not lift or grab the Folding foundation near the Hinges. See Fig. 1 and Fig. 2

Fig. 1

Fig. 2

Step 3: Place the slip cover over the foundation and pull it down over the sides so that the elastic corners are secured over the lip of the leg. See Fig. 3

Fig. 3
